Community Involvement in Decision Making 4125

Community participation in the affairs of the schools is an important facet of achieving improved quality of education for the students. Therefore, the Board intends to make every effort to identify the desires of the community and to be responsive to those desires.

Citizens of the district will be encouraged to express their ideas, concerns and judgments about the school through:

1. written suggestions or proposals;
2. presentations at hearings;
3. responses to surveys made through interviews, written instructions;
4. comments at meetings of the board;
5. service on citizen's advisory committees.

The advice of the public will be carefully considered. In the evaluation of such advice, the first concern will be the educational program as it affects students.
