Snow Day Athletic Contest Policy

In the event of a snow day at Kimberly High School, when an athletic contest has been scheduled, the following policy will be in effect. No games will be played at Kimberly High School or at any other school, on a day that school is not in session due to weather. If Kimberly is in school, but the school we are playing does not have school, we can still play, if the opposing school allows and weather is cooperative. The exception to this policy would be if it was a district tournament game or state event. Then Kimberly would be allowed to play if the weather and road conditions improved during the day they were to play. This decision would be determined by the athletic director, transportation director, principal, and superintendent of the schools involved.
