**ITEM# 10B-4 USE OF ESSER III FUNDS FOR FACILITY UPGRADES**

\*\*\*\*\*

It was originally planned to utilize the Long-Range Planning Committee, which will convene in January, to make recommendations for the use of the ESSER III funds. However, there are some immediate needs that require attention ASAP. I am asking for the KSD board to direct the use of the ESSER III funds for the following projects.

- KHS Bathroom Stall Partitions - Estimated less than \$50,000, currently waiting on an estimate from SBI Contracting
- Stadium Track Resurface - Estimated over \$100,000 and will require an RFP that is awarded by the Board of Trustees
- KHS Gymnasium Bleachers Repair - Estimated between \$50,000 to \$100,000 and requires three estimates.
