

Kimberly School District #414
REGULAR BOARD MEETING FY27
THURSDAY, AGUST 20, 2026
AGENDA# 12B2 PLANT FACILITY LEVY RESOLUTION

The Board of Trustees will consider a resolution to place a Plant Facility Levy before voters at the November 2026 election. District administration recently met with several local patrons and district representatives to review historical Plant Facility Levy expenditures, current facility needs, deferred maintenance, and anticipated future costs.

As a result of that discussion and community feedback, the recommendation is to revise the previous proposal of \$500,000 annually for 10 years to a \$400,000 annual Plant Facility Levy for five years. If approved, the resolution would authorize the Plant Facility Levy question to be placed on the November 2026 ballot.

Several of the local patrons involved in the discussion plan to attend the meeting and share their perspectives with the Board regarding the proposed Plant Facility Levy.
