AGENDA #12B7 1<sup>ST</sup> READING REVISE POLICY 8101 SAFETY BUSING

\*\*\*\*\*

This policy revision updates the safety busing section to align with current procedures and guidance from the State Department of Education. The prior language referencing the measuring and scoring instrument as “incorporated and attached to this policy as Exhibit 1” has been removed. Instead, the policy now directly describes the evaluation factors and scoring threshold used by the Board when considering safety busing requests.
