

Kimberly School District #414
REGULAR BOARD MEETING FY23

THURSDAY, FEBRUARY 16, 2023

ITEM# 9-3 ESSER III/ARP PLANT FACILITY PROJECTS

The Kimberly School Board of Trustees has approved the use of ESSER III/ARP to construct a single-entry vestibule at KHS similar to what is in other KSD buildings. Governor Little has proposed a fund that school districts could apply for to utilize for school safety and security. I would like the board to consider putting the KSD Single Entry Vestibule project on hold in the event KSD could apply and be awarded a grant from the state that would finance this project.

Recommendation: The administration recommends that the Kimberly School District Board of Trustees postpone the KHS Single Entry Vestibule pending the outcome of grant money from the state for safety and security projects.

Additionally, the board of trustees approved the submission of an RFP for the track resurfacing project. As I was working with attorney Tim Stover, it appears this may be a public works project which would require a different process. I will have more information available at the time of the board meeting with a recommendation.
