

Kimberly School District #414  
**REGULAR BOARD MEETING FY25**  
THURSDAY, JUNE 19, 2025

\*\*\*\*\*

The Board will consider the timing of future ballot measures, including the Supplemental Levy, Plant Facility Levy, and a potential bond election. In light of recent unsuccessful bond elections across the state and concerns about running multiple measures simultaneously, the administration will present two facility plan options—a \$55 million ideal version and a reduced \$35 million alternative—for discussion.

**Administration Recommendation:**

Proceed with the Supplemental and Plant Facility Levies in November 2025 and postpone the bond election to May 2026. In the interim, conduct community meetings and focus groups to present facility options, gather feedback, and better understand community priorities before finalizing a bond measure.
