

Kimberly Elementary School

Megan Garner, Principal Victoria Larsen, VP Jenny Snell, Counselor

Parent Involvement Policy

Our community of parents, students, and staff at Kimberly Elementary believe that parental involvement is critical to the social, emotional, and academic education of students. Together we share the responsibility for the growth and development of all students. In order to further facilitate parent engagement, we adhere to the following:

Teacher Goals and Responsibilities

- Develop educational policies in the best interest of students
- Use research-based instructional programs and strategies
- Provide high-quality instruction with appropriate resources
- Present clear expectations of meeting learning objectives and targets
- Continually monitor and respond to results
- Deliver pertinent information to parents and students in a timely manner

Distribution of Information

- All school related information will be available in English and Spanish. Other translations will be provided upon request.
- Our Parent Involvement Policy will be sent home to all students in their back-to-school folders at registration. In addition, the policy will be available at our front office, and on our website.
- Information regarding school programs, meetings, and activities will be distributed via hard-copy invitations, social media accounts, and the school website.
- Teachers will discuss and distribute achievement data in multiple areas during conferences and scheduled meetings.
- All students will receive a copy of the current teacher-student-parent compact which can also be found on the school website. Parents complete the compact with their child and return it to school each year.

Parent/Guardian Participation

- Barriers to parental involvement, e.g., transportation, childcare etc. will be addressed individually as needed and may be funded by Title I.
- Invitations will be extended to Parents/guardians to attend family nights focused on literacy, math, and school and community resources.
- Parents/guardians will attend scheduled conferences with classroom teacher(s) at least twice per school-year. Parents wishing to volunteer at school need to complete a background check before beginning their service.
- Kimberly Elementary welcomes parents/guardians to volunteer in their student's classroom.
- Parents/guardians are invited to participate in school and district committees to advocate children's best education.
