

Policy 3141 | Kimberly

OUT OF DISTRICT “NON-RESIDENT STUDENT(S)” ADMISSION POLICY/PROCEDURE

The Kimberly School District Board of Trustees, in conformance with Idaho Code, sections 33-1402 through 33-1404 hereby adopts written policy guidelines for accepting or rejecting out-of-district students.

An out-of-district/non-resident student is defined as any student who resides outside the legal school boundaries of District #414. Out-of-district/non-resident students who are accepted into Kimberly Schools shall be accorded all rights and privileges of students who live within the boundaries of Kimberly Public schools. However, out-of-district/non-resident students are guests in the district. Thus, out-of-district/non-resident students, who are a continuous discipline problem or exhibit chronic attendance problems, may be asked to withdraw immediately, from Kimberly Schools and return to their home district/school. This decision would result only after consultation between the school principal, the student, and the parents.

Students may attend school in other than the resident student’s school under the following circumstances:

1. State Enrollment Options Program;
2. When the resident and non-resident districts mutually agree; or
3. When the resident district and an out-of-state school district mutual agree;
4. Except when such transfer would work a hardship on the receiving school district

STATE ENROLLMENT OPTIONS PROGRAM

Whenever the parent or guardian of a student determines it is in the best interest of the student to attend a school other than the student’s resident school, the parent/guardian must apply annually for admission to the out of district/non-resident school on a form provided by the State Department of Education. The application, together with the student’s cumulative record, special education file, IEP, or other applicable documents, if any, shall be submitted to the receiving district no later than February 1 for enrollment during the following school year. The February 1 deadline may be modified by mutual agreement of the resident and out of district/non-resident school. Notice of the application must be given to the student’s residence district.

Students with disabilities are not treated differently from non-disabled students with respect to consideration for placement in the school of their choice, unless the District has made an individual determination that disability-related needs of a particular student with a disability cannot be reasonably met at the school of their choice due to appropriate consideration of teacher and staff, resources, program availability, hardship to the District, Declaration of Hardship and/or other factors.

An administrator who is knowledgeable of the student, the student’s academic history, the student’s disability who has been designated by the Superintendent shall evaluate data, if any, and/or the placement options. The Designee has discretion to review and accept or deny the Open Enrollment applications on a case by case basis.

The out of district/non-resident school will have 60 days in which to consider the application. The district may deny out-of-district/non-resident student enrollment for circumstances that constitute a hardship, or fall within the scope of any Hardship Declaration including, but not limited to, enlarged student-teacher ratios; overcapacity of any program such as special education, classes, as well as overcapacity of any grade level, or building; or any other factors pertaining to staffing, student-teacher ratios, case load and/or to protect the health, safety, and welfare of its existing students and/or its educational processes. If the application is denied, the out of district/non-resident school must provide a written explanation of the denial of enrollment.

No tuition shall be charged when a student attends an out of district/non-resident school under the State’s Enrollment Options Program.

MUTUAL AGREEMENT OF RESIDENT AND NON-RESIDENT IDAHO DISTRICTS

The boards of trustees of a resident and out of district/non-resident district may agree in writing, on an annual basis, that students may be allowed to attend school in the non-resident district.

MUTUAL AGREEMENT OF RESIDENT DISTRICT AND AN OUT-OF-STATE DISTRICT

The Board of Trustees may agree in writing, on annual basis, that a resident student attend school in the nearest appropriate school district in a neighboring state. Such agreement shall state the rate of tuition and cost of transportation, if any, to be paid by the District. The agreement will be entered into the records of the Board of Trustees. A copy must be filed with the State Board of Education.

The Board of Trustees may, upon approval of the State Board of Education, enter into an agreement with the governing body of a school district in another state for education and/or transportation of an out-of-state student. The rate of tuition, cost of transportation as well as other appropriate costs shall be specifically addressed in the agreement. The agreement will be entered into the records of the Board of Trustees with a copy to be filed with the State Board of Education.

Out of District/non-resident students must make application annually. Continued enrollment in the Kimberly School District will include continued adherence to school rules and regulations. Generally allowing a pupil to continue their education in the same school environment is in the best interest of the student. However, the district will annually assess the capacity of specific grade levels and programs to assure a reasonable class size is maintained. This annual assessment may necessitate the rejection or transfer to another school of an out-of-district/non-resident student's attendance agreement for the subsequent year. Children of employees will be placed at a school based on considerations that best meet the needs of the district and employee and will stay at the school originally placed unless extenuating circumstances exist.

ADMISSION PROCEDURES

The Kimberly School District may accept new out of district applications for any school in the district. Placement decisions will be based upon current enrollment capacities Preference given to siblings already enrolled in KSD.

Out of district application forms are available at the Kimberly School District Office. Based upon mutually agreed upon waivers, applications will be accepted at any time throughout the school year, although the general period for accepting applications will be by the 1st Monday in April for the following school year.

For students who live outside the Kimberly School District boundaries, the parent/guardian completes the out of district application form and submits it to the Kimberly School District Office. The parent/guardian must give notice to the home school.
