THINGS TO PONDER

- COVID
- Interim Assessments
- Time on Test
- Teacher shortage and retention
- Successes – what are we doing right!

COVID

- Learning Loss
- How much ground do our students need to make up?
 - One report in July 2021 stated students on average are five months behind in mathematics and four months behind in reading by the end of the school year. The pandemic widened preexisting opportunity and achievement gaps, hitting historically disadvantaged students hardest.
 - High schoolers have become more likely to drop out of school and are less likely to go on to postsecondary education.
- Social emotional aspect

INTERIM ASSESSMENTS

Guiding Questions

1

What do we want students to **LEARN** ?

What should each student know and be able to do when looking at each standard and measurable learning targets?

2

How will we **KNOW** if they've learned it ?

Development of CFA's, check for understanding, and analyze the data in a timely manner?

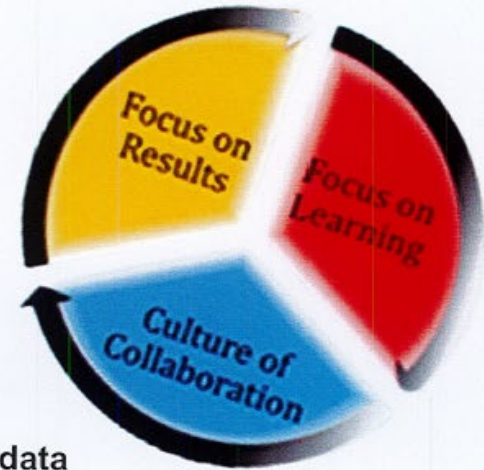

3

How will we respond if they **DID NOT** learn it?

What systematic process is in place to provide additional time and support for students who experience difficulty?

4

How will we **EXTEND LEARNING** for those who know it?
