

# Kimberly School Transportation

Seeking Safety, Service, and Efficiency

Darla Wadsworth, Director

Dear School Board,

November 15, 2019

The Transportation Department has been working on completing mileages for the year so far. We will have our first ridership count for the state the week after Thanksgiving break and will also have a semi-annual state inspection coming up after the New Year. We are busy reviewing paperwork and completing all drivers/route evaluations along with bus evacuations. Bus inspections continue to be completed every 60 days with more intense inspections annually. A big Thanks to Nick Schroeder for his hard work and care of the safe operation of our Fleet.

The Idaho State new basic bus bids for 2020 will be finalized soon. We are looking forward to the bus bid this year and we are always excited for the time to upgrade the bus fleet; as we still have several old and outdated buses.

Transportation has made a smooth transition with all day Kindergarten and we appreciate all those who continue to keep us updated on all the changes. We look forward to our busiest time of the year as basketball, wrestling, bowling and debate all get under way! Go DAWGS!

Sincerely,

Darla Wadsworth  
Director of Transportation  
Kimberly School District
