290 The only challenge with remote Friday is when I have a question. I have gotten my answers successfully answered through email or Teams meetings and there is also the possibility of going to the school and getting help face-to-face. Not being directly in the classroom with the teacher can be a bit of a challenge when I have a question, but there are ways around it and I feel like it is not a big deal and I still get the help that I need.
