February 18, 2020

School Board Members:

The KMS annual ski day was recently held for each grade. This is an activity most students look forward to each year. Students learned and developing their ski/snowboarding skills or participating in snowshoeing. For many students this is the only opportunity being exposed to these types of activities. This year we offered an extra day of skiing/snowboarding on the two Fridays we didn't have school. We had a great turn out with over 100 students show up.

Middle school boys basketball is coming to a close. The end of the year tournament will be held this week, February 18<sup>th</sup> and 20<sup>nd</sup>. KMS does not look at success as wins vs. losses but having coaches that focus on the importance of developing fundamental skills and getting all players involved. Good luck to our boys teams!

This past weekend a group of 8 teacher, including myself attended the Idaho Middle Level Conference in Twin Falls, ID. The weekend was filled with breakout sessions centered around all things middle level. It was a powerful conference and a lot was gained from our keynote speaker to the breakout sessions.

## Student Numbers

6<sup>th</sup> Grade: 185

7<sup>th</sup> Grade: 170

8<sup>th</sup> Grade: 157

Total Number of Students: 512

This is an increase of 49 students over last year at this same time
