

Remote Day Survey

Parent: Will be asked to complete survey for each school they have a child in attendance.

The remote day that are on Fridays was created with the purpose for students and staff to master remote learning skills in the event the district transitioned to remote learning for an extended period of time, reduce exposure to the Covid-19 virus, and teach students 21st century skills. After nearly half of a school year completed, the remote day has proven to be a tremendous mitigation strategy in reducing exposure to Coronavirus. Moving past the pandemic and planning for next school year we are asking for your input as we consider the future utilization of the weekly remote day. Please take a moment and respond to the questions below.

1. Did the remote day achieve the goals and purposes as intended? Yes/No
2. How does the remote day benefit you?
3. What challenges and hardships does the remote day create for you?
4. Do you feel your child benefits academically from the remote day. Yes/No
5. Do you feel your child learns valuable skills in addition to academics via the remote day? Yes/No
6. Is Friday the best day for the remote day? Yes/No
7. When the pandemic is over and looking into the future would you be in favor of continuing one remote day a week? Yes/No

Teachers: Survey will be given and results tabulated per building.
