

Hi all.

Here is what the Leadership team agreed on for the rest of the school year:

- Mastery means that the student understands basic principles and can apply them to solve problems and gain further knowledge.
- No DWA grading this Spring.
- Teachers will have autonomy to continue with new lessons until May 15.
- Because class lessons are online, the teacher can allow the students to finish by May 15. Expectations for finishing the course must be clear and well defined.
- From May 15 until June 2, teachers will work individually with students who are behind or not passing with a C or better.
- You are not required to give an EOC. If you ask students to take it, make sure you give them chance to re-take it to achieve a passing grade. The EOC should not lower their overall grade in your class.
- June 2nd is the official end of school year.
- Summer School will start on June 3rd. If students don't finish/ pass classes required for graduation, they will be asked to finish during Summer School.

Please let me or any member of the HS Leadership team know if you have any questions.
