BOARD REPORT

January 10, 2020

The Maintenance and Custodial Departments was able to catch up on a few projects over the Holiday Break! We only had to deal with snow removal two days during the break. We have been fortunate to not have much snow, so far this year. Looks like we are in for more white stuff this coming weekend!

We have a had a few Heating issues to deal with this past month, but not any more than normal.

The Maintenance and Custodial personnel would like to express their gratitude to the School Board and Superintendent for the KBOA gift certificates!

Ted Wasko
