BOARD REPORT

The lawns are rapidly turning green and mowing will begin soon. We are getting all the lawn equipment “Ready to Roll”! Regular mowing will probably start next week.

The irrigation water will be in soon and we will begin the process of charging the irrigation system and repairing and replacing sprinklers.

We have been trimming edges and spraying where needed.

During the soft closure, the maintenance folks have been working on essential items. We are conducting daily building checks. The HVAC has been turned down or off in all the buildings.

Custodial staff has been cleaning and disinfecting foyers and other entry areas daily.
