### **BOARD REPORT**

February 18, 2020

On January 21<sup>st</sup> and 22<sup>nd</sup>, the State Department of Building Safety conducted the annual safety inspection of our district's buildings and grounds. The inspector submitted a list of recommendations for us to work on. Most of the recommendations have been complied with. There are some sidewalk repairs that we will need to work on later, when the weather warms up. We had a few issues with improper use of extension cords. The extension cord issues have been corrected.

The custodial staff has been busy trying to keep up with the cleaning of the district's buildings. We have a substitute custodian helping out and we are trying to find another substitute. We recently lost one custodian and we have another custodian out on a workmen's comp issue.
